# You are cordially invited to the
# First Actuary Career Fair
# at the University of Massachusetts, Amherst

**Date: Wednesday, October 7, 2009**
**Time: 5:00pm to 8:00pm**
**Location: Lederle Graduate Research Tower (LGRT) 1634**

The department of Mathematics and Statistics is proud to announce the first actuary career fair. This is a great opportunity for students interested in a mathematical and well-paying actuarial career to network with the insurance business community. You do not have to pass actuarial exams to attend, you just need to be curious about life as an actuary.

The following insurance companies from New England will attend:

MassMutual FINANCIAL GROUP
Prudential
The Hanover Insurance Group — Our policy is performance.
The Hartford
Blue Cross Blue Shield Massachusetts
Liberty Mutual

The companies will present actuarial careers and what they have to offer. It is never too early or too late to learn about the actuarial career path! Attend even if you don't have a resume. Free food is provided on site!

Some companies will be searching for students to fill full-time positions and/or internship positions. Students seeking jobs should dress business professionally, bring several copies of resume, and come prepared to market their talents.

Any questions concerning the fair can be directed to

Co-directors of the Actuarial Program at the Department of Mathematics and Statistics

Professor Anna Liu anna@math.umass.edu

Professor Michael Sullivan sullivan@math.umass.edu
