NERALLT
Union College (October 13 – 14, 2011)
Christiane Métral

I attended the NERALLT (New England Regional Association for Language Learning Technology) conference on October 13-14, 2011 at Union College, NY. The conference was entitled “21st Century Skills Map for World Languages: Technologies in Support of 21st Century Language Learning.”

I presented the on-going Cross-Cultural Connections project that students in my Fn250 class are involved in. In this intercultural exchange, almost weekly, students chat on skype or during videoconferences with students from Telecom ParisTech, a leading French engineering Grande Ecole in Paris. Students also communicate on a shared moodle platform and work on an array of cultural activities.
