MA Minimum Wage Increase Effective January 1, 2015

Due to an increase in the Massachusetts minimum wage effective January 1, 2015, Smith’s base hourly wage for on-campus student workers will increase by $0.25, to $9.00. To maintain the current difference between on-campus and off-campus rates, the college has elected to raise off-campus and special position rates currently paying $15.00 or less by $0.25 as well (even though these rates are currently at or above the new effective rate). The new off-campus rate will be $9.50 and the selected special position rates will increase $0.25 from their current levels.

Since this increase will occur during the college’s holiday break, December 24-January 4, the rate change will be effective December 28 to ensure the Bi-weekly#2 pay period of December 28-January 10 will generate only one time sheet.

Retroactive hours worked—please ensure all hours worked prior to December 28, 2014 are submitted on a time sheet prior to leaving campus. If you need assistance on processing retro hours, please follow this link to Retro Hours-Exception Time Submission [http://www.smith.edu/controller/student_payroll.php](http://www.smith.edu/controller/student_payroll.php)

Since this is a mid-year change, the projected cost increase will be funded by a transfer to departmental operating budgets for FY 2015.

In addition to the 2015 change, the state law increases the minimum wage in both calendar year 2016 and 2017, $10.00 and $11.00 respectively. The Budget Office will provide information related to these future student wage increases in departmental budget call materials for FY 2016, and budget submissions should incorporate the new rates.

Departments should plan on hiring student workers on JobX after January 1 for work beginning January or after to ensure the proper hourly rate is applied to the position.

Casual workers are managed by Human Resources. Please contact HR if you have questions regarding your current casual workers.
