Celebrating Collaborations

Students and Faculty Working Together
Saturday, April 21, 2012
Celebrating Collaborations: Students and Faculty Working Together
Saturday, April 21, 2012
8 a.m.–5:15 p.m.

Smith College’s annual showcase of student research and performance highlights students’ intellectual achievements and collaborative efforts with faculty in a variety of departmental, program and interdisciplinary projects. This is a celebration of liberal arts education.

It is our hope that all members of the Smith community and many guests will partake in the educational richness of this day, recognizing that these sessions are a mere sampling of the exciting student-faculty collaborations that unfold on our campus every day.
8–10:30 a.m.  
Morning Refreshments  
Campus Center  

8:30–10:30 a.m.  
Science Poster Session  
Campus Center  

Science poster displays are numbered to correspond with the numbers below.  

Shawn McMahon ‘12 and Michelle Cortrite ‘13 1  
Investigating Coral Reef State of Health off San Salvador Island, Bahamas; science poster session deriving from classwork with Paulette Peckol, Louise C. Harrington Professor of Biological Sciences  

Tia Novak ‘13 and Courtney Faria ‘12 2  
Queen Conch (Strombus gigas) Shells Serve as Microhabitats in Seagrass Beds, Graham’s Harbor, San Salvador, Bahamas; science poster session deriving from classwork with L. David Smith, professor of biological sciences, and Paulette Peckol, Louise C. Harrington Professor of Biological Sciences  

Katharine Robb ’14, Margaret Snelgrove ’13 and Caroline Hackett ’14 3  
Target Fish Abundance on Patch Reefs off San Salvador, Bahamas; science poster session deriving from classwork with Paulette Peckol, Louise C. Harrington Professor of Biological Sciences  

Saira Huq ’12 4  
Bioactive Compounds and Their Utility in Lymphatic Filariasis Drug Development; science poster session deriving from thesis with Steven Williams, Gates Professor of Biological Sciences  

Francesca Tomaino ’12 5  
A Point-of-Care Assay for the Detection of Filarial Parasites in Mosquitoes; science poster session deriving from thesis with Steven Williams, Gates Professor of Biological Sciences  

Rachael Sirois GS and Ivy Mead ’12 6  
Metagenomic Study of the Equine Gastrointestinal Tract Before and After Treatment with the Parasite Medication Ivermectin; science poster session deriving from thesis with Steven Williams, Gates Professor of Biological Sciences  

Yisi Lu ’12 7  
Exploring the Expression, Localization Pattern and Potential Immunogenic Function of a Novel Protein Family Juvp120 in Parasite Brugia malayi; science poster session deriving from thesis with Steven Williams, Gates Professor of Biological Sciences  

Kristin Peck ’12, Katharine Robb ’14 and Aunaly Palmer ’14 8  
Comparative Effects of Herbivory on Castanea dentata and Quercus (spp.); science poster session deriving from classwork with Jesse Bellemare, assistant professor of biological sciences and Katherine Halvorsen, professor of mathematics and statistics  

Karyn Nelson GS 9  
The Role of Biotic and Abiotic Factors in the Decline of Clintonia borealis in Western Massachusetts; science poster session deriving from thesis with Jesse Bellemare, assistant professor of biological sciences  

Michael Cardozo GS, Emily Barbour ’15 and Marika Witkus ’14 10  
The Role of Seed Banks in Restoration Ecology; science poster session deriving from classwork with Jesse Bellemare, assistant professor of biological sciences
Celebrating Collaborations 2012

Grace Anderson '12 11
Micro-Biogeography of Stream Bryophytes: Evidence of Rock Size and Downstream Accumulation Effects; science poster session deriving from classwork with Jesse Bellemare, assistant professor of biological sciences

Jenna Zukswert '13, Katherine Dymek '14 and Meredith Gallogly '12 12
Red-Backed Salamanders, Leaf Litter Mesofauna and Soil pH in Hemlock and Deciduous Forests; science poster session deriving from classwork and STRIDE research with Jesse Bellemare, assistant professor of biological sciences

Emily Barbour '14 and Katherine Dymek '14 13
Horticultural Insights to the Realized vs. Fundamental Niches of Rare Endemic Plants; science poster session deriving from STRIDE research with Jesse Bellemare, assistant professor of biological sciences

Katy Hofmeister HC '13, Megan Svoboda '12, Courtney Faria '12 and Lilly Dalton '12 14
Seed Bank Species Richness in Three New England Habitats, MacLeish Field Station, Whately, Mass.; science poster session deriving from classwork with Jesse Bellemare, assistant professor of biological sciences and Katherine Halvoren, professor of mathematics and statistics

Jessamine Finch '12 and Brittany Innis '13 15
Coarse Woody Debris and Land Use History: Limited Recovery of Old-Growth Characteristics in Secondary Forests at the MacLeish Field Station; science poster session deriving from classwork with Jesse Bellemare, assistant professor of biological sciences

Lidiya Berhanu Denu '13 16
Novel Proteins Involved in Zebrafish Forebrain Development; science poster session deriving from research with Michael Barresi, assistant professor of biological sciences

Cat Lagdameo '12, Lydia-Rose Kesch '15 and Rachael Stein '12 17
Effects of the Gulf Coast Oil Spill in Zebrafish Development; science poster session deriving from thesis with Michael Barresi, assistant professor of biological sciences

Naihan Chen '14 and Martha Dillon '14 18
An Upcoming Genetic Teaching Lab; science poster session deriving from special studies with Robert Merritt, professor of biological sciences and Steven Williams, Gates Professor of Biological Sciences

Kelsey Hartman '12 20
Marine Protected Areas: Are They Protecting the Right Reefs? science poster session deriving from special studies with Paulette Peckol, Louise C. Harrington Professor of Biological Sciences, and Jon Caris, spatial analysis lab coordinator

Caroline Keroack '14 21
Investigating the Structure and Function of Pinniped Vibrissae; science poster session deriving from research with Virginia Hayssen, professor of biological sciences, and Dr. Joy Lapseritis '94

Diane Chen '14 22
Reproductive Pattern Within Family Herpestidae: Patterns Among Genera; science poster session deriving from STRIDE research with Virginia Hayssen, professor of biological sciences

Veronica Falconieri '12 23
Light It Up: Finding Proteins in Muscle Cells; science poster session deriving from research with Stylianos Scordilis, professor of biological sciences

Emma Sundberg '14 24
Exploring Differential Gene Expression in Arabidopsis thaliana; science poster session deriving from STRIDE research with Lou Ann Bierwert, technical director of the Center for Molecular Biology and lab instructor

Sarah Winokur '15, Helen Smith '14, Lindsay Roth '15, Farzana Kibria '15, Malayna Hocker '15, Jo-Ellen El Khoury '14, Sarah Devine '15, Cheryl Creed '15, Sarah Coffee '15, Sophia Carroll '15, Joanna Bagienska '15, Abigail Antoine '15 and Priscilla Yong '15 25
Our Phage Phamily: Mycobacteriophage Captured on the Smith College Campus; science poster session deriving from classwork with Robert Merritt, professor of biological sciences, and Lori Saunders, laboratory instructor of biological sciences

Linda Kim '15, Esther Hong '14, Signe Dahlberg-Wright '14 and Virginia Diaz '14 26
Extruded Liposomes as Cell Membrane Models for Ion Transport; science poster session deriving from AEMES research with Cristina Suarez, associate professor of chemistry

Jing Zhang '14, Rebecca Gerdes '15 and Jinglin Huang '14 27
Biofilm Growth on Nano-scale Surfaces; science poster session deriving from special studies with Kate Queeney, associate professor of chemistry, and Robert Dorit, associate professor of biological sciences
Susanna Michael '12 28
Investigating the Sources and Significance of Dissolved Organic Carbon in Avery Brook Watershed, Whately, Mass.; science poster session deriving from thesis with Kate Queeney, associate professor of chemistry, and Robert Newton, professor of geosciences

Megan Januszewski '14 29
Quantifying Nanoscale Topography of Functionalized Silicon Surfaces; science poster session deriving from special studies with Kate Queeney, associate professor of chemistry

Risha Sinha '14 and Elizabeth Stewart '13 30
Investigation of the Thermodynamic Stability of the Spiro Aminodihydantoin Lesion; science poster session deriving from special studies with Elizabeth Jamieson, associate professor of chemistry

Julea Vlassakis '12 31
Accuracy of DNA Pairing by the RecA Protein; science poster session deriving from thesis with Elizabeth Jamieson, associate professor of chemistry, and Kate Queeney, associate professor of chemistry

Kimberly Kupinski '15, Alexandra Page '12 and Hana Cha '14 32
The Chromatographic Separation of the Diastereomers of 2,6-Dimethylcyclohexanol, a Potential General Anesthetic; science poster session deriving from thesis with Kevin Shea, associate professor of chemistry

Sarah Rothstein '12 and Mera Hoddinott '12 33
Synthesis and Application of a Novel Cationic Diels-Alder Dienophile Stabilized by Adjacent Cobalt Complexed Alkynes; science poster session deriving from thesis with Kevin Shea, associate professor of chemistry

Elsa Hinds '13 and Catriona Blunt '12 34
Development of a Tandem Diels-Alder/Pauson-Khand Strategy for the Synthesis of Tetracycles; science poster session deriving from thesis with Kevin Shea, associate professor of chemistry

Amelia Valladares '12 35
Carbonyls Bending Backwards?; science poster session deriving from thesis with Robert Linck, professor of chemistry

Eliza Kate Spear '12 36
Ruthenium Gallops the Nicotinamide Ring; science poster session deriving from thesis with Robert Linck, professor of chemistry

Bo Ram Yoo '14 and Lexiaochuan Wen '12 37
An Environmentally Friendly Synthetic Approach: Making Vanillin From Colored Clay; science poster session deriving from thesis with Lâle Burk, senior lecturer in chemistry

Ruth Eichinger '12, Johanna Ravenhurst GS and Rob Currens '14 38
Characterization of a Circadian Clock Gene in Brugia malayi; science poster session deriving from thesis with Steven Williams, Gates Professor of Biological Sciences

Nguyen Huynh '12, Iju Shakya '13 and Krithika Venkataraman '15 39
Decoding the Promoter of the Thioredoxin peroxidase-2 gene in Brugia malayi; science poster session deriving from thesis with Steven Williams, Gates Professor of Biological Sciences

Christina Johns '12 and Jennifer Chan '12 40
Beta-Amyloid Pores in Cell Membranes; science poster session deriving from special studies with Adam Hall, associate professor of biological sciences

Jun Huang '12 41
Confirming the 3D Solution Structure of a DNA Sequence Using NMR Spectroscopy; science poster session deriving from special studies with Cristina Suarez, associate professor of chemistry

Colby Loew '13 42
The Antibiotic Monensin as a Model Cation Transporter in Liposomes; science poster session deriving from special studies with Cristina Suarez, associate professor of chemistry

Malia Charter '15 43
Protecting Archaic Languages: The Use of Computer Analysis of Handwritten Syriac; science poster session deriving from STRIDE research with Nicholas Howe, associate professor of computer science

Caitlin T. Crowl '12, Katherine H. Lipow '14 and Joselyn L. Quintanilla '15 44
Detecting Exoplanet Transits Using the McConnell Rooftop 16-inch Telescope; science poster session deriving from special studies, STRIDE and AEMES research with James Lowenthal, associate professor of astronomy, and Suzan Edwards, L. Clark Seelye Professor of Astronomy

Maya Lewin-Berlin '13 and Brenda Carballo-Ramirez '14 45
Gravity Driven Dense 3D Flow of Granular Material; science poster session deriving from AEMES research with Nalini Easwar, professor of physics

Ruby Zucker '12, Bhavna Mungur '12, Elizabeth Helbling '12 and Sylvia Altreuter '12 46
Design Improvement of Off-Highway Truck Frame Components; science poster session deriving from classwork in Engineering Design Clinic sponsored by Caterpillar with Susannah Howe, director of the design clinic and senior lecturer in engineering
Design of an Organic Waste Digestion and Composting Facility; science poster session deriving from classwork in Engineering Design Clinic sponsored by Fuss & O'Neill with Susannah Howe, director of the design clinic and senior lecturer in engineering

Design of a Device to Detect Acidosis/Alkalosis in Diabetics; science poster session deriving from classwork in Engineering Design Clinic in conjunction with collaborators at Marquette University with Susannah Howe, director of the design clinic and senior lecturer in engineering

Design of a Treatment System for Silage Leachate; science poster session deriving from classwork in Engineering Design Clinic sponsored by the Natural Resources Conservation Service with Susannah Howe, director of the design clinic and senior lecturer in engineering

Design and Development of a High-Elongation Strain Gage for Medical Applications; science poster session deriving from classwork in Engineering Design Clinic sponsored by Protopeutics with Susannah Howe, director of the design clinic and senior lecturer in engineering

Design of Norwottuck Rail Trail Spur in Leeds; science poster session deriving from special studies with Susannah Howe, director of the design clinic and senior lecturer in engineering

Intrasubject Variability in Power Reflectance Measurements; science poster session deriving from special studies with Susan Voss, associate professor of engineering

Fabrication of a Cargo Cycle; science poster session deriving from Engineers for a Sustainable World, Smith College Chapter, with Denise McKahn, assistant professor of engineering

Oxytocin Receptors and the Neuroanatomy of Sociality in South American Rodents; science poster session deriving from special studies with Annaliese Beery, assistant professor of psychology

Naturally-Occurring Variation in Maternal Care Affects Social Interaction Behavior but not Central Oxytocin Receptor Expression in Adult Rat Offspring; science poster session deriving from thesis with Annaliese Beery, assistant professor of psychology

Look at That: A Case Study in Word Learning From Six to Fourteen Months; science poster session deriving from research with Jill de Villiers, professor of philosophy and Sophia and Austin Smith Professor of Psychology

Forming Concepts While Eyetracking: Artifact vs. Natural Kind; science poster session deriving from STRIDE research with Jill de Villiers, professor of philosophy and Sophia and Austin Smith Professor of Psychology

Communication Between Parents and Their Preschool Children with Autism; science poster session deriving from laboratory and STRIDE research in Peter de Villiers’ language acquisition lab, as well as STRIDE research with Peter de Villiers, Sophia and Austin Smith Professor of Psychology

Wendy Essery AC ’12
American Women Who Paved the Way: A History of Scientific Pioneers

Illustrating a Movement: Blanche Ames and the Fight for Women’s Suffrage

10:45 a.m.–noon
Concurrent Sessions

French Studies: Seelye 107

Christianne Beasley ’12
Prêt-à-Saper: The Cultural Identity of Congolese Fashion
Presentation deriving from classwork with Dawn Fulton, associate professor of French studies

Alexandra Ankudowich ’12
Paulette Nardal: The Negritude Movement and Black Identity
Presentation deriving from classwork with Dawn Fulton, associate professor of French studies

Nora Nadire ’14
L’identité d’une fille algérienne et française (The Identity of an Algerian and French Girl)
Presentation deriving from classwork with Anouk Alquier, lecturer in French studies

Erika Earley ’15
Stravinsky and Nijinsky: Revolutionary Vision in “The Rite of Spring”
Presentation deriving from classwork with Anouk Alquier, lecturer in French studies

History, Society and Culture: Seelye 109

Karina Peterson ’14
Fertility and Contraception in Modern Europe: Separating Myth From Historical Reality
Presentation deriving from special studies with Ernest Benz, associate professor of history

Emma Whetsell ’14
The Goths After Death: Burial Practices Among the Wielbark and Cemnachov Cultures
Presentation deriving from classwork with Craig Davis, professor of English language and literature

Hannah Sultan ’12
Comparative Food Security: Brazil and Mozambique
Presentation deriving from special studies with Nola Reinhardt, professor of economics

Catherine Leung ’12
Inclusion and Exclusion: The Social Implications of Afghanistan: Crossroad of the Ancient World
Presentation deriving from classwork with Richard Lim, professor of history; and Cornelia Pearsall, professor of English language and literature

Kahn Institute — Renaissances: A Multiplicity of Rebirths: Seelye 110

Margaret Dodge ’12
Images of the Garden in Poetry From the Arab Caliphate in Al-Andalus

Dylan Farrell ’12
A Renaissance of Local Heroes: Visually Representing the Local Food Movement

Janelle Gatchalian ’12
Recycled Paper Artifacts: Futurist Print Media in Circulation

Anna Hallman ’13
Strange Fruit and Renaissance: Evaluating Past and Present, Black and White Cultures, Gender, and Blues and Jazz
Rachel Johnson ’12
Transcultural Negotiations: Cherokee Women, Slavery and the Domestic Ideal

English, Linguistics and Film Studies: Seelye 301

Kelsey Cummings ’13
Heroism and Marginalization in Blade and Underworld
Presentation deriving from classwork with Alexandra Keller, associate professor of film studies

Molly Gavin ’12
The Dream of the Rood: A Translator’s Tale
Presentation deriving from special studies with Nalini Bhushan, professor of philosophy; Craig Davis, professor of English language and literature; and Barry Moser, Irwin and Pauline Alper Glass Professor of Art

Filippo Cervelli GS
The Poetry of Cathy Song
Presentation deriving from special studies with Floyd Cheung, associate professor of English language and literature

Esra Karamehmet ’13J
Sylvia Plath’s “Fever 103”
Presentation deriving from special studies with Karen Kukil, associate curator of special collections

Chinese Studies: Seelye 308

Pauline Pelsy-Johann GS
Yuayuan, a Chinese Woman
Presentation deriving from special studies with Bernadine Mellis, Five College visiting artist in film studies

Kailin Weng ’12
Investing in the Hottest: On the Art Market for Top Ten Chinese Contemporary Artists
Presentation deriving from thesis work with Mahnaz Mahdavi, professor of economics, and Deborah Haas-Wilson, Marilyn Carlson Nelson Professor of Economics

Yuanyuan Liu GS
Ginling: Empowerment and Challenge
Presentation deriving from special studies with Susan Bourque, Esther Booth Wiley Professor of Government, and Lane Hall-Witt, lecturer in history and director of the American Studies Diploma Program

Smithsonian Institution Museum Projects: Seelye 311

This session of PowerPoint presentations derives from independent research conducted at the Smithsonian Institute with Rosetta Cohen, Sylvia Dlugach Bauman Professor of Education and Child Study.

Charlotte Helmer ’13
Return to the Castle: How Early Smithsonian Architecture Could Affect the Next Smithsonian Museum

Camille Kulig ’13
Embracing Portraits of the Feminist Body: An Exercise in Curating a Mock Exhibition for the National Portrait Gallery

Megan Porter ’13
The Roswell Conspiracy Theory: Demonstrating the Need to Think Critically About History in Secondary Schools

Shama Rahman ’13
Reclaiming the Political: How Women Entered the Public Sphere in Antebellum America

Russian Studies: Seelye 312

Sophia Carroll ’15 and Meredith Nnoka ’13
The Nightmare of Success: Literary Dystopias and Their Societal Implications
Presentation deriving from special studies with Maria Banerjee, professor of Russian language and literature

Sarah Brigitta Hendron ’13
The Russian Woman: A Bilingual Poetry Reading
Presentation deriving from special studies with Maria Banerjee, professor of Russian language and literature

Lauren Young ’12
“Senseless Dreams”—Slavophilism in the Reign of Nicholas II: His Court Photographs and Private Correspondence
Presentation deriving from thesis work with Maria Banerjee, professor of Russian language and literature

Deborah Nadler ’12
Inscribed on the Body: The Soul and the Physical Form in the Philosophical Novels of Dostoevsky, Kafka, Musil and Kundera
Presentation deriving from special studies with Maria Banerjee, professor of Russian language and literature

Spanish, Brazilian and Italian Studies: Seelye 313

Anna Leversee ’12
Sword, Speech, Silence: Weapons of Conquest in the Epic Nuevo Mundo y conquista by Francisco de Terrazas
Presentation deriving from special studies with Reyes Lazaro, associate professor of Spanish and Portuguese

Samantha Edwards ’12
Translating “Nada”: The Struggle for Identity in Post-War Spain
Presentation deriving from special studies with Reyes Lazaro, associate professor of Spanish and Portuguese
Chloe Hill ’12
Baladas: Brazilian Poetry in Translation
Presentation deriving from special studies with Marguerite Harrison, associate professor of Spanish and Portuguese, and Charles Cutler, lecturer and professor emeritus of Spanish and Portuguese

Karen Ho ’12
Translating Italian: Special Studies Project
Presentation deriving from special studies with Giovanna Bellesia, professor of Italian language and literature

Noon–1:30 p.m.
Campuswide Lunch
Chapin Lawn
(rain location: Scott Gymnasium)
Open to all students and visitors. Lunch will not be served in campus houses. Music provided by members of the Smith College Jazz Ensemble.

1:30–2:30 p.m.
Concurrent Sessions

Dance: Seelye 107
Carolyn Griffin ’12
Oskar Schlemmer’s Battle Against the Real in The Triadic Ballet
Presentation deriving from final paper with Lester Tomé, assistant professor of dance

Brandy Neary ’14
Revolution on Stage: The Validity of Hip Hop Theatre
Presentation deriving from classwork with Lester Tomé, assistant professor of dance

Danielle Pite ’12
A Neoclassical Exploration of Quantum Mechanics
Presentation deriving from thesis with Rodger Blum, professor of dance

Economics and American Studies: Seelye 109
Sichu Mali GS
Microcredit Loans: A Comparative Study
Presentation deriving from thesis with Charles Staelin, professor of economics

Kyoko Kitada GS
Changing Economic Mobility in the U.S.
Presentation deriving from special studies with Lane Hall-Witt, lecturer in history and director of the American Studies Diploma Program

Guangye Cao ’12
Financial Liberalization and Inequality
Presentation deriving from thesis with Roisin O’Sullivan, associate professor of economics

Food Sustainability: Seelye 110
Hannah Sultan ’12
Food for Thought: Critical Food Studies in Landscape Studies Curriculum
Presentation deriving from summer internship with Nina Antonetti, assistant professor of landscape studies

Joanna Winkler ’12
The Political Economy of Local Agriculture
Presentation deriving from special studies with Gregory White, professor of government

Rebekah Garder AC ’12
Can Local Food Work?
Presentation deriving from special studies with Julianne Busa, lecturer in environmental science and policy

Marta Sicinska ’12
From Beantown to Beetown: A Sociological Perspective on the Urban Beekeeping Community and Its Activism in Boston, Mass.
Presentation deriving from thesis with Leslie King, associate professor of sociology

Education and Child Study: Seelye 301
Liesa Ruhlmann GS
Project Coach: Youth Development and Academic Achievement Through Sport
Presentation deriving from special studies with Samuel Intrator, professor of education and child study

Kristen Krumbiegel ’12 and Megan Lonsdale ’13
The Design of Indoor Playscapes in the Early Childhood Environment: Developmental Benefits for Young Children
Presentation deriving from special studies with Susannah Howe, director of the design clinic and senior lecturer in engineering, and Susan Etheredge, professor of education and child study

Yanning Yu ’13
Grazing or Digesting? Learning Environments That Prepare Students for the Knowledge Economy
Presentation deriving from special studies with Al Rudnitsky, professor of education and child study
Celebrating Collaborations 2012

Poetry Concentration: Seelye 311

This session of PowerPoint presentations derives from work for the Poetry Concentration Research Capstone Project with Ellen Doré Watson, director of the Poetry Center and lecturer in English language and literature.

Hannah Shadrick '12
Telling the Body Story

Amanda Picardi '12
Cartography of Un-: Mapping the Self Through Art and Poetry

Victoria Henry '13J
Exploring Transience and the Fragmented

Theatre and Art: Seelye 312

Elizabeth Tyra '14
Mobility of American Women’s Dress in the ’Teens
Presentation deriving from special studies with Catherine Smith, professor of theatre

Gabrielle Giacalone '12
High Line, High Rise
Presentation deriving from special studies with James Middlebrook, assistant professor of art

Clarke Knight '14
Footnotes in Architecture: An Annotated Bibliography of Women Designers
Presentation deriving from STRIDE research with James Middlebrook, assistant professor of art

Biology, Geosciences and Neuroscience: Seelye 313

Grace McKay-Corkum '14 and Lorna Pyle '12
The Coupling Mechanism of Circadian Rhythms in the Liver
Presentation deriving from thesis with Mary Harrington, Tippit Professor in the Life Sciences (Psychology)

Jenna Zechmann '12
A Glacial Erosion Model Designed to Re-create Pleistocene Longitudinal Bed Profiles for the Gilkey and Thiel Glaciers, Juneau Icefield, Alaska
Presentation deriving from thesis with Robert Newton, professor of geosciences

Clare Landefeld '12
The Effectiveness of Engineered Bacteriocins as Target-Specific Antibiotics
Presentation deriving from thesis with Robert Dorit, associate professor of biological sciences

Chinese Word and Images: Winslow Teaching Gallery, lower level, Museum of Art

This session will run from 1:30 to 3 p.m.

Tatiana Cassel ’13, Hannah Chan ’12, Hyojung Chang ’13, Cindy Chiang ’13, Melissa Cho ’13, Amy Deng ’12, Julie Fieldsteel ’12, Irene Hofstetter ’12, Kinari Horton ’14, Hee Yoon Koo ’12, Amy Lam ’12, Joon Young Lee ’13, Jessica Levine AMH ’13, Caitlin Snow ’13, Alice Tan ’13 and Lingyan Xu ’14
Journey Beyond Words: Encounters Between Chinese Poetry and Painting
Presentation deriving from classwork with Sujane Wu, assistant professor of East Asian languages and literatures

1:30–4 p.m. Museums Concentration Research Capstone Projects

This session of presentations, deriving from classwork with Jessica Nicoll, director and Louise Ines Doyle 1934 Chief Curator of the Smith College Museum of Art, will be held in Seelye 101.

Margaret Kurkoski ’12
Portable Rome: Exploring and Exhibiting Ancient Coins

Francesca LoGalbo ’12
Clarence Kennedy: Advocate for Photography as a Medium for Art Historical Education

Sophia Ong ’12

Thursday, April 19, through Saturday, April 21

Discovery Weekend (overnight program for admitted women of color). Welcome to the expected 120 students!

Friday, April 20

Take Back the Night
Take Back the Night is an annual vigil, march and speak-out that brings survivors, supporters and the community together to shatter the silence around sexual and interpersonal violence. The event is a supportive, empowering and nonjudgmental space for all survivors and survivor allies. Please feel free to bring personal stories or poetry about sexual or relationship violence to share in an open mic style. The speakout empowers survivors by giving a space to share stories and break the silence. After the event, participants are invited to the Resource Center for Gender and Sexuality for snacks and hot drinks, and to discuss, process and get support in a safe environment.
7:30 p.m.—11:30 p.m., Chapin Deck—outside of Campus Center

Saturday, April 21

Crew v. Newmac Championships
8 a.m

Track and Field v. Aloha Relays (Bowdoin College)

Acknowledgements
Funding for this event is made possible through the generous support of the Provost’s Office, the President’s Office and the Office of the Dean of the College.
Dining Services provided outstanding food and logistical assistance with breakfast and lunch.
The Office of College Relations provided invaluable assistance with publicity.
The Office of Admission provided collaborative efforts to enable this event to be held in conjunction with Discovery Weekend.
The Development Office made alumnae aware of this event.
Facilities Management provided essential logistical assistance.
Classroom Support ensured that appropriate equipment and support was available for all presentations.
Matt Gawron and the Campus Center staff kindly allowed us to use the Campus Center prior to its opening and ensured that the science poster session went smoothly.

Key to Abbreviations
AC = Ada Comstock Scholar
AMH = Amherst College
GS = graduate student
HC = Hampshire College
J = graduation in January
MHC = Mount Holyoke College
NHS = Northampton High School
UMass = University of Massachusetts Amherst
Notice of Nondiscrimination

Smith College is committed to maintaining a diverse community in an atmosphere of mutual respect and appreciation of differences. Smith College does not discriminate in its educational and employment policies on the bases of race, color, creed, religion, national/ethnic origin, sex, sexual orientation, age, or with regard to the bases outlined in the Veterans Readjustment Act and the Americans with Disabilities Act. Smith’s admission policies and practices are guided by the same principle, concerning women applying to the undergraduate program and all applicants to the graduate programs. For more information, please contact the adviser for equity complaints, College Hall 103, (413) 585-2141, or visit www.smith.edu/diversity.
