Celebrating Collaborations: Students and Faculty Working Together  
Saturday, April 20, 2013  
8 a.m.–5:15 p.m.

Smith College’s annual showcase of student research and performance highlights students’ intellectual achievements and collaborative efforts with faculty in a variety of departmental, program and interdisciplinary projects. This is a celebration of liberal arts education.

It is our hope that all members of the Smith community and many guests will partake in the educational richness of this day, recognizing that these sessions are a mere sampling of the exciting student-faculty collaborations that unfold on our campus every day.
Special Exhibits

These student-curated exhibits will be available for viewing all day.

**The Chemist in the Garden: Origins of Natural Products**  
Ford Hall Atrium

Signe Dahlberg-Wright '14
An exhibit of botanical books from the Mortimer Rare Book Room collection, deriving from special studies with Lâle Burk, senior lecturer in chemistry; Martin Antonetti, lecturer in art and curator of rare books; and Barbara Blumenthal, rare book specialist

**Gaze of Our Lives: Female Portraits, a Selection From the Cunningham Center for Prints, Drawings and Photographs**  
Winslow Teaching Gallery, lower level, Smith College Museum of Art

Petru Bester '15, Amanda Ferrara '13, Hailey Hargraves '13, Honor Hawkins '13, Magdalena Hooi '16, Margaret Kean '14, Frances Lazare '14, Megan Lowry '14, Jinan Martiuk '14, Eleanor Morse '14, Isabella Pioli '15, Shama Rahman '13, Janna Singer-Baefsky '15, Marley Smit '14, Katherine Wisniewski '13 and Manzhuang Zheng '13

---

8–10:30 a.m.  
**Morning Refreshments**  
Campus Center

8:30–10:30 a.m.  
**Science Poster Session**  
Campus Center

*Science poster displays are numbered to correspond with the numbers below.*

Chloe Beckman '16, Alexandra Singer '16, Mary Patterson '16, Dana Hsu '16, Josie Verchomin '16, Elizabeth Lindley '15 and Abagael Shrader '13
“Then We Became Friends and Respected Each Other”: The Relation Between Earning Respect and Friendship in Middle Childhood; science poster session deriving from laboratory research with Shannon Audley-Piotrowski, assistant professor of education and child study

Isabel Lipartito '15
Expanding Scientific Education in Local Communities and Throughout the Nation; science poster session deriving from STRIDE research with Thomas Gralinski, outreach coordinator for the Center for Community Collaboration

Alyssa Stanek '13 and Laura Malecky '13
Coral Reef Ed-Ventures Program 2012—From Mangrove to Deep Sea: An Environmental Education Initiative for Schoolchildren in San Pedro, Belize; science poster session deriving from summer internship with H. Allen Curran, William R. Kenan, Jr., Professor Emeritus of Geology; L. David Smith, professor of biological sciences; and Denise Lello, coordinator of the Four College Biomathematics Consortium
Wanda Feng ’15 4
Mass Accretion From T Tauri Stars; science poster session deriving from SURF and special studies with Suzan Edwards, L. Clark Seelye Professor of Astronomy

Eva Lubeck-Schricker ’15 5
Exoplanet Transits; science poster session deriving from special studies with James Lowenthal, professor of astronomy

Xinyi (Cherry) Huang ’16 6
The Large Van de Graaff Generator History; science poster session deriving from early research projects with Dana Parsons, laboratory supervisor in physics

Brenda Carballo-Ramirez ’14 and Maya Lewin-Berlin ’13 7
Interplay Between Packing and Flow in the Shear Zone at the Wall of a Granular Hopper Flow; science poster session deriving from grant-supported research with Nalini Easwar, professor of physics

Jenny Podel ’14 8
Teaching the Physics of Granular Material Through Scientific Inquiry; science poster session deriving from special studies with Nalini Easwar, professor of physics

Szilvia B. Kiss ’13 and Emily Flynn ’14 9
Validating KINARI Rigidity Analysis: Cluster Comparison and Visualization; science poster session deriving from classwork with Ileana Streinu, Charles N. Clark Professor of Computer Science

Emily Flynn ’14 and Sharon Pamela Santana ’14 10
Rigidity and Flexibility of Nucleic Acid Protein Complexes; science poster session deriving from biomathematics research with Ileana Streinu, Charles N. Clark Professor of Computer Science

Jennifer Weng ’15 11
Improved Test of Energy Quantization in Atomic Gases; science poster session deriving from STRIDE research with Nathanael Fortune, professor of physics

Kelly Smith ’13 and Min Jeong Kim ’15 12
Synthesis and Purification of 2,6-Dimethylcyclohexanol and 2,6-Disubstituted Cyclohexanol for Application as General Anesthetics; science poster session deriving from thesis work with Kevin Shea, associate professor of chemistry

Tessa Clark ’13, Gloria Ortiz ’14 and Emma Whetsell ’14 13
The Synthesis and Reactivity of a Novel Cationic Diels-Alder Dienophile Stabilized by a Cobalt-Complexed Alkyne; science poster session deriving from special studies with Kevin Shea, associate professor of chemistry

Szilvia Kiss ’13 and ShuMing Huang ’15 14
Development of a Cobalt-Mediated Synthesis of Strained Cyclic Alkynes; science poster session deriving from thesis work with Kevin Shea, associate professor of chemistry

Elsa Hinds ’13 and Zulema Peralta ’15 15
Development of a Tandem Diels-Alder/Pauson-Khand Reaction Strategy for the Synthesis of Tetracycles; science poster session deriving from thesis work with Kevin Shea, associate professor of chemistry

Caroline Keroack ’14 16
Structural Analysis of Neurolenins A and B; science poster session deriving from special studies with Kevin Shea, associate professor of chemistry, and Steven Williams, Gates Professor of Biological Sciences

Danielle Chichester ’13 17
2D NMR Spectroscopy of Mutagenic DNA Duplexes; science poster session deriving from thesis work with Elizabeth Jamieson, associate professor of chemistry, and Cristina Suarez, associate professor of chemistry

Yoon Bae ’15, Brian Gruessner and Elizabeth Stewart ’13 18
Investigation of the Thermodynamic Stability of the Diastereomeric Spiroiminodihydantoin Lesion; science poster session deriving from thesis work and special studies with Elizabeth Jamieson, associate professor of chemistry

Kimberly Kupinski ’15 19
Synthesis, Purification and Characterization of the Diastereomers of the Spiroiminodihydantoin Lesion of DNA; science poster session deriving from STRIDE research with Elizabeth Jamieson, associate professor of chemistry

Jiyeon Kim ’13, Garbo Garbocauskas ’15, Drew Colman ’15 and Shimu Liu ’15 20
DNA-Small Molecule Conjugates for Site-Selective Chemistry; science poster session deriving from thesis work with David Gorin, assistant professor of chemistry

Yuan Ji ’14, Jessica Sweeney ’14 and Jillian Zoglio ’14 21
Methylation of Oxygen Nucleophiles in Organic Synthesis; science poster session deriving from special studies with David Gorin, assistant professor of chemistry

Yu Cao ’15, Sara Stoudt ’15 and Dana Udwin ’14 22
Sampling With Google Maps and R to Estimate Population Proportions; science poster session deriving from classwork with Nicholas Horton, professor of mathematics and statistics

Kate Aloisio ’13 23
Making Sense of Discordant Reports: Missing Data and Eating Disorders; science poster session deriving from
thesis work with Nicholas Horton, professor of mathematics and statistics

Roseanna Hopper '15 24
Understanding Quantitative Skills of Smith College Students; science poster session deriving from STRIDE research with Nicholas Horton, professor of mathematics and statistics, and Minh Ly, assistant director for assessment

Linda Loi '13 25
Marks for R Markdown; science poster session deriving from special studies with Nicholas Horton, professor of mathematics and statistics

Sarah Alper '15 and Brittany Claiborne '16 26
Where in the World Is the Year of Statistics?; science poster session deriving from STRIDE research with Nicholas Horton, professor of mathematics and statistics

Claire Delzell '16 27
Orderly Tangles: Rebuilding and Expanding Upon Alan Holden’s Polylinks; science poster deriving from STRIDE research with Pau Atela, professor of mathematics and statistics, and Marjorie Senechal, Louise Wolff Kahn Professor Emerita in Mathematics and History of Science and Technology

Yamin Tun '14 and Rumbidzai Vushe '14 28
Glowing Light: Electricity-Consumption Monitoring Device; science poster session deriving from special studies with Judith Cardell, associate professor of engineering and of computer science

Jinjin Lu '14 29
State Grid Indicator; science poster session deriving from special studies with Judith Cardell, associate professor of engineering and of computer science

Jennifer Holliday '13 30
Rural Electrification in South Africa: Design Challenges and Considerations; science poster session deriving from thesis work with Judith Cardell, associate professor of engineering and of computer science

Genevieve de Mijolla '13 31
Customer Interface for Real-Time Electrical Demand; science poster session deriving from thesis work with Judith Cardell, associate professor of engineering and of computer science

June Lukuyu '13 32
Design and Analysis of Hybrid Off-Grid Power Systems for Remote Villages in Kenya; science poster session deriving from thesis work with Judith Cardell, associate professor of engineering and of computer science

Lauren Hilton '14 33
Up, Up and Away: Miniature Fuel Cell Systems for Meteorological Balloons; science poster session deriving from special studies with Denise McKahn, assistant professor of engineering

Zin Min Aye '13, Phoebe DeGroot '13 and Celeste To '13 34
Design of an Impeller Labyrinth Seal; science poster session deriving from classwork sponsored by Dresser-Rand with Susannah Howe, director of the design clinic and senior lecturer in engineering

Shannon MacKenzie '13, Yun Ni '13 and Alina Pechacek '13 35
Design of an Algorithm to Identify Targets From Bistatic Radar Data; science poster session deriving from classwork sponsored by MITRE with Susannah Howe, director of the design clinic and senior lecturer in engineering

Sofia Goodrich '13, Linda Son '13 and Sarah Weber '13 36
Design of a Scalp Cooling Device to Reduce Hair Loss During Chemotherapy; science poster session deriving from classwork sponsored by 3M, in conjunction with collaborators at Marquette University and with Susannah Howe, director of the design clinic and senior lecturer in engineering

Bianca Arevalo '16, Flora Wang '16, Meghna Purkayastha '16 and Adrienne Saludades '15 37
Facilitating Engineering Innovation by Integrating Biomimicry and TRIZ; science poster session deriving from STRIDE research with Susannah Howe, director of the design clinic and senior lecturer in engineering

Taylor Beall '13, Elizabeth Donovan '13, Marie Frese '13 and Alex Van De Water '13 38
Prediction of Cooling Fin Erosion and Development of Design Improvements to Reduce Damage; science poster session deriving from classwork sponsored by United Technologies Aerospace Systems with Susannah Howe, director of the design clinic and senior lecturer in engineering

Lindsay Duran '13, Sarah Pong '13 and Eunice Zhao '13 39
Design of a Culvert Replacement Structure at Depot Road in Williamsburg, MA; science poster session deriving from classwork sponsored by HyGround Engineering with Susannah Howe, director of the design clinic and senior lecturer in engineering

Sanita Dhaubanjar '13, Megan Lonsdale '13 and Claudette Nitard '13 40
Restoration Design for Barros Bog in Bourne, Mass; science poster session deriving from classwork sponsored by
the Natural Resources Conservation Service with Susan
nah Howe, director of the design clinic and senior lecturer
in engineering

Sage Brown ’13, Diane Kayitesi ’14J, Sicong Ma ’13
and Amanda Nadeau ’13 41
Design Improvements for a Ceramic Water Filter for Use
in Nepal; science poster session deriving from classwork
sponsored by iDE Nepal with Susanah Howe, director of
the design clinic and senior lecturer in engineering

Catherine Betances ’13, Monique Gagne ’13 and
Rajiha Mehdi ’13 42
Inventory of Green Infrastructure Opportunities and
Design of Priority Retrofits for Stormwater Management;
science poster session deriving from classwork sponsored
by Northampton Department of Public Works with Susan
nah Howe, director of the design clinic and senior lecturer in engineering

Salma Bargach ’14 and Natasha Krell ’16 43
Green Infrastructure for an Aging Stormwater System;
science poster session deriving from special studies with
Andrew Guswa, professor of engineering

Julia Signell ’14 44
Developing and Evaluating a Monthly Curve Number
Method for Predicting Stormflow; science poster session
deriving from SURF research with Andrew Guswa, profes-
sor of engineering

Brittany Bennett ’15 and Alexandra Julius ’14 45
Design of Gravity-Fed Irrigation System for MacLeish Field
Station; science poster session deriving from special studies
with Reid Bertone-Johnson, MacLeish Field Station man-
ager and lecturer in landscape studies

Emily Dixon ’15J 46
MacLeish Field Station: Organic Apple Orchard; science
poster session deriving from special studies with Reid
Bertone-Johnson, MacLeish Field Station manager and
lecturer in landscape studies

Laila Phillips ’15, Emily Wald ’15 and Rebecca
Wolfe ’15 47
The Mill River Greenway Initiative: Creating GIS Maps for
Feasibility Studies; science poster session deriving from
STRIDE and AEMES research with Reid Bertone-Johnson,
MacLeish Field Station manager and lecturer in landscape studies

Catherine Campbell-Orrock ’15, Tam Nguyen ’16
and Mara Keledi ’16 48
Mill River Greenway Initiative: Mill River Walk Brochure;
science poster session deriving from STRIDE and AEMES
research with Reid Bertone-Johnson, MacLeish Field Sta-
tion manager and lecturer in landscape studies

Allison Logan ’14 49
Where Are the Resources? A Geospatial Analysis of Income
and Access in Holyoke and Northampton; science poster
session deriving from special studies with Reid Bertone-
Johnson, MacLeish Field Station manager and lecturer in landscape studies

Stefanie Cervantes ’13 50
Sustainable Development Plan: The Use of Coastal Zoning
in Ambergris Caye, Belize; science poster session deriv-
ing from special studies with L. David Smith, professor of
biological sciences

Maya Kutz ’15 51
Permaculture Design, Maintenance and Culture; science
poster session deriving from special studies with Paul Wet-
zel, environmental monitoring coordinator for the Center
for the Environment, Ecological Design and Sustainability
and lecturer in environmental science and policy

Christina Goethel ’13, Keighley Lane ’15 and Emily
Peake ’13 52
Massachusetts Maple Sugaring in the Age of Climate
Change; science poster session deriving from fieldwork
with Paul Wetzel, environmental monitoring coordinator
for the Center for the Environment, Ecological Design and Sustainability and lecturer in environmental science and policy

Stephanie Acevedo ’15, Meredith Gallogly ’12 and
Rebecca Taylor ’16 53
Investigating Forest Floor Communities in Contrasting
Hemlock vs. Deciduous Forest Stands at the MacLeish
Field Station; science poster session deriving from AEMES
research with Jesse Bellemare, assistant professor of bio-
logical sciences

Emily Olmsted ’14 54
Protecting Pennsylvania: Hydraulic Fracturing in North-
eastern Pennsylvania and the Associated Challenges of
Wastewater Management; science poster session deriving
from special studies with Amy Rhodes, associate professor of
geosciences

Theo Sweezy ’14 55
Biogeochemistry of Forest Succession Following Logging
of Hemlock Trees at the MacLeish Field Station; science
poster session deriving from special studies with Amy
Rhodes, associate professor of geosciences

Jenna Zukswert ’13 56
Comparison of Throughfall Chemistry in a Mature Hem-
lock Forest and an Early-Successional Deciduous Forest
Resulting from Salvage Logging in Whately, Mass.; science
poster session deriving from thesis work with Jesse Bel-
lemare, assistant professor of biological sciences, and Amy
Rhodes, associate professor of geosciences
Samantha Blanchett '13 57
Nucleation of Garnet; science poster session deriving from thesis work with John Brady, Mary Elizabeth Moses Professor of Geosciences

Sophie D'Arcy '16 and Seulgi Son '16 58
Investigating the Longevity of Earthquake Segments Along the Coast of Northern Chile; science poster session deriving from STRIDE research with John Loveless, assistant professor of geosciences

Sophie Westacott '13 59
Paleoecology of Post-Extinction Silicified Fossil Assemblages of the Lower Triassic Virgin Limestone Member in the Muddy Mountains, Southern Nevada; science poster session deriving from thesis work with Sara Pruss, assistant professor of geosciences

Maggie Sawdy '13 60
Constraining the Record of Late Neoproterozoic Life in the Otavi Group of Northern Namibia; science poster session deriving from thesis work with Sara Pruss, assistant professor of geosciences

Maggie Sawdy '13 and Sophie Westacott '13 61
Age Structure of Cerion Populations in San Salvador, Bahamas; science poster session deriving from classwork done with Sara Pruss, assistant professor of geosciences

Eliana Perlmutter '16 62
Organic Microfossils in Ediacaran Strata of Northern Namibia; science poster session deriving from STRIDE research with Sara Pruss, assistant professor of geosciences

Savannah Lawson '14 63
Geobiology of the Pahrump Group, Death Valley, Calif.; science poster session deriving from special studies with Sara Pruss, assistant professor of geosciences

Kiara Gomez '14 64
Mapping the Ooid Distribution at Pigeon Creek Delta, San Salvador, Bahamas; science poster session deriving from special studies with Sara Pruss, assistant professor of geosciences

Viviana Aluia '15, Sabrina Camboulives '13, Nicole Collier '14, Kiara Gomez '14, Savannah Lawson '14, Jennifer Leman '14, Kelsey Moore '15 and Sarah Stephen '15J 65
Investigating the Unusual Brown Sand of Sediment-Starved Beaches on the Leeward Coast of the Bahaman Islands; science poster session deriving from classwork with Bosiljka Glumac, professor of geosciences

Viviana Aluia '15, Sabrina Camboulives '13, Nicole Collier '14, Kiara Gomez '14, Savannah Lawson '14, Jennifer Leman '14, Kelsey Moore '15 and Sarah Stephen '15J 66
Comparison Between Laminated vs. Spongiform Texture in Holocene Eolian Carbonate Deposits From Little Exuma Island, Bahamas; science poster session deriving from classwork with Bosiljka Glumac, professor of geosciences

Viviana Aluia '15, Sabrina Camboulives '13, Nicole Collier '14, Kiara Gomez '14, Savannah Lawson '14, Jennifer Leman '14, Kelsey Moore '15 and Sarah Stephen '15J 67
Petrology of Holocene Carbonate Deposits from Exuma Island, Bahamas; science poster session deriving from classwork with Bosiljka Glumac, professor of geosciences

Viviana Aluia '15, Sabrina Camboulives '13, Nicole Collier '14, Kiara Gomez '14, Savannah Lawson '14, Jennifer Leman '14, Kelsey Moore '15 and Sarah Stephen '15J 68
Dynamics of Shallow Marine Deposition and Sediment-Organism Interaction in Times of Warm Climate, High Sea Levels and Increased Storm Activity; science poster session deriving from classwork with Bosiljka Glumac, professor of geosciences

Kelsey Moore '15 69
Decorative Stones of the Smith College Van Buren Collection; science poster session deriving from special studies with Bosiljka Glumac, professor of geosciences

Shawn Moore '13 70
Origin of the River Channel Sands of the Chickaloon Formation From Matanuska Valley, Alaska; science poster session deriving from special studies with Bosiljka Glumac, professor of geosciences

Melody Cao '16, Valeria Coronilla '16, Maria Cristina Del Valle '16, Claire Keller '16, Nashipae Mosiany '16, Karen Yu '16 and Wei Zhang '16 71
Searching for Isotopic Signatures of Hydrologically Closed Jurassic Lakes in Western Massachusetts; science poster session deriving from research with Bosiljka Glumac, professor of geosciences

Jane Ramsey AC 72
Rehabilitation Success of Stranded Cetaceans in the Gulf of Mexico; science poster session deriving from special studies with Paulette Peckol, Louise Harrington Professor of Biological Sciences

Susan Wu '13 73
Olive Ridley Sea Turtle Arribadas in Mexico, Costa Rica, and India; science poster session deriving from special studies with Paulette Peckol, Louise Harrington Professor of Biological Sciences
Karen Gilbert ’13 74
Possible Seagrass Fragmentation in Carteret County, N.C.; science poster session deriving from special studies with Paulette Peckol, Louise Harrington Professor of Biological Sciences

Paula Noonan ’13 75
Taking Measure of Mustelids: Morphological Diversity; science poster session deriving from thesis work with Virginia Hayssen, professor of biological sciences

Siobhan Prout ’15 76
Variation in Mustelid Hind Foot and Tail Length; science poster session deriving from STRIDE research with Virginia Hayssen, professor of biological sciences

Emily Lyons ’13 77
Influence of Dominance and Sex Differences on Center/Edge Effect in Mallards; science poster session deriving from special studies with Virginia Hayssen, professor of biological sciences

Jenna Wurster ’14 78
“Got That 2:30 Feeling?” Using Circadian Oscillations in the Fight Against Lymphatic Filariasis; science poster session deriving from special studies with Steven Williams, Gates Professor of Biological Sciences

Kyle Boyd ’15 79
Effects of Environmental Changes on the Physiology of Native and Invasive Desert Annual Plants; science poster session deriving from special studies with Danielle Ignace, assistant professor of biological sciences

Luvana Chowdhury ’13, Faith Donaher ’15, Ridwana Fairuz ’15 and Susan Haynes 80
Development of the Multiplex DNA Assay; science poster session deriving from special studies with Steven Williams, Gates Professor of Biological Sciences

Iju Shakya ’13, Krithika Venkataraman ’15 and Asma Amin ’15 81
Exploring the Promoter of the Brugia malayi Thioredoxin Peroxidase-2 Gene; science poster session deriving from thesis with Steven Williams, Gates Professor of Biological Sciences

Jaclyn Perreault ’14J 82
There’s No Place Like Host: Temperature as a Cue for Signaling a Host Environment in Pathogenic and Commensal E. coli; science poster session deriving from special studies with Christine White-Ziegler, professor of biological sciences

Da Yae Lee ’14 and Jeong Min Kwak ’14J 83
When Microbes Huddle for Action: Development of Surface-Attached Biofilm Communities in Escherichia coli in Response to Temperature Changes in the Environment; science poster session deriving from special studies with Christine White-Ziegler, professor of biological sciences

Gemma Regan-Mochrie ’15 84
It’s Getting Hot in Here: Thermoregulation of Motility vs. Biofilm Gene Expression in E. coli; science poster session deriving from special studies with Christine White-Ziegler, professor of biological sciences, and Carolyn Dehner, McPherson Postdoctoral Fellow and lecturer in biochemistry

Cait Kirby GS 85
What’s Your Orientation?; science poster session deriving from research with Robert Merritt, professor of biological sciences

Defne Abur ’14, Maria Alvisi ’16, Sophie Bandurski ’16, Samantha Danguilan ’15, Ria Deshpande ’16, Katia George ’15, Stephanie Huynh ’15, Arcadia Kratkiewicz ’16, Meredith Millman ’16, Fei Peng ’16, Rebecca Ratusnik ’16, Rebecca Taylor ’16, Victoria Wolf ’16, Rebecka Worrell ’16 and Nina Wren ’16 86
Microscopic Bacteria Assassins (A Real “Phage” Turner): Genomic Analysis of Novel Bacteriophage; science poster session deriving from classwork with Lori Saunders, laboratory instructor in biological sciences, and Melissa Torres, Wilens Fellow in Biological Sciences

Annabel Austin ’13 87
The Effects of Estrogen Receptor Antagonists on the Murine Myogenic Proteome; science poster session deriving from thesis work with Stylianos Scordilis, professor of biological sciences

Katharine von Herrmann GS 88
Proteome Profiling of C2C12 Myogenesis; science poster session deriving from thesis work with Stylianos Scordilis, professor of biological sciences

Lidiya Denu ’13 89
Astroglial Cells and Commissure Formation in the Forebrain; science poster session deriving from special studies with Michael Barresi, assistant professor of biological sciences

Diane Chen ’14, Michelle Deadwyler ’14 and Lydia-Rose Kesich ’15 90
The Teratogenic Effects of Macondo Crude Oil on Zebrafish Development; science poster session deriving from STRIDE research with Michael Barresi, assistant professor of biological sciences

Abigail Antoine ’15, Jin Sook Park ’15 and Nina Wren ’16 91
Axon Guidance With Slit/Robo Interactions; science poster session deriving from STRIDE research with Michael Barresi, assistant professor of biological sciences
Tanya Husain '16, Tatenda Mahlanza '15 and Carla Velez '13 92
Cellular and Molecular Characterization of Post-Optic Commissure Formation in the Zebrafish Forebrain; science poster session deriving from special studies with Michael Barresi, assistant professor of biological sciences

Risha Sinha '14 and Paula Zaman '13 93
Identifying Specific ZRF (2–4) Protein Targets in the Developing Zebrafish Brain; science poster session deriving from special studies with Michael Barresi, assistant professor of biological sciences, and Kalina Dimova, laboratory instructor in biochemistry

Kelly Zaccheo GS 94
Modeling Zebrafish Spinal Cord Development; science poster session deriving from special studies with Michael Barresi, assistant professor of biological sciences, and Nessy Tania, assistant professor of mathematics and statistics

Madeleine Arthur '15, Sarah Winokur '15, Gillian Anderson '14 and Jacqueline Escobar '15 95
My Mouse Has Too Much Homework! Sex-Specific Differences of the Mouse Amygdala and Stress; science poster session deriving from classwork with Allison Anacker, Eweillard Postdoctoral Fellow and lecturer in neuroscience, and Mary Harrington, Tippit Professor in the Life Sciences (Psychology)

Jennifer Christensen AC, Kay Kulason '15 and Abigail Antoine '15 96
More Than a Memory: The Role of the Hippocampus in Novel Object Recognition; science poster session deriving from classwork with Mary Harrington, Tippit Professor in the Life Sciences (Psychology) and Allison Anacker, Eweillard Postdoctoral Fellow and lecturer in neuroscience

Jeong Min Kwak '14j, Janet Ku '14 and Kay Kulason '15 97
Is Jet Lag Stressful?; science poster session deriving from special studies with Mary Harrington, Tippit Professor in the Life Sciences (Psychology)

Bushra Anis '13 and Gloria Kim '13 98
The Brain Changes Associated With Fatigue; science poster session deriving from thesis work with Annaliese Beery, assistant professor of psychology

Grace McKay-Corkum '14 99
Effects of Interleukin-1 Beta on Sleep in Mice; science poster session deriving from special studies with Mary Harrington, Tippit Professor in the Life Sciences (Psychology)

Martha Dillon '14 100
Exploration of Hepatocyte Circadian Rhythms; science poster session deriving from special studies with Mary Harrington, Tippit Professor in the Life Sciences (Psychology)

Mariam Bhuiyan '14, Melissa Chenok '15, Elyssa LaFlamme '15 and Joselyn Quintanilla '15 101
Alcohol and the Pleasure Center (a Mouse’s Tale); science poster session deriving from classwork with Allison Anacker, Eweillard Postdoctoral Fellow and lecturer in neuroscience, and Mary Harrington, Tippit Professor in the Life Sciences (Psychology)

Jamila Barger '15, Bonnie Hawkins '15 and Amanda MacAvoy '14 102
A Molecular Mechanism for Anesthetic Preconditioning; science poster session deriving from special studies with Adam Hall, associate professor of biological sciences

Sonya Bhatia '13 103
Novel Mechanism for Breast Cancer Progression; science poster session deriving from special studies with Adam Hall, associate professor of biological sciences

Belinda Nhundu '13 and Calliandra Lombard '13 104
Exploring the Neurotoxic Effects of Isoflurane in Neonates; science poster session deriving from thesis work with Adam Hall, associate professor of biological sciences

Luvana Chowdhury '13 105
Modulation of GABAA Receptor Currents by Stereoisomers of the Novel Anesthetic Compounds 2,6-dimethylcyclohexanol and 2,6-diisopropylcyclohexanol; science poster session deriving from thesis work with Adam Hall, associate professor of biological sciences

Kristen Park '14j and Christine Park '15 106
Mechanism for Direct Transfer of Protein-Coated Probe Into Black Lipid Membrane vs. the Effects of Anesthetics on Amyloid Beta and M2 Pores in Black Lipid Membrane; science poster session deriving from special studies with Adam Hall, associate professor of biological sciences

Kara Reitz '14 107
Seasonal Differences in Corticosterone Levels of Meadow Voles; science poster session deriving from special studies with Annaliese Beery, assistant professor of psychology

Emma Cooke '14 108
Oxytocin Receptors and Developmental Loss of Affiliative Behavior in Hamsters; science poster session deriving from special studies with Annaliese Beery, assistant professor of psychology

Virginia Stoddard-Merriam '15 and Katharine Wilson '15 109
Viewing Children’s Personal Drawing and Writing Styles Through Their Biographies; science poster session deriving from STRIDE research with Peter Pufall, Professor Emeritus of Psychology
Anne Regan ’12 and Shanila Sattar ’12J 110
The Mediation of Perfectionism in the Relationship Between Grit and Positive and Negative Psychological Outcomes; science poster session deriving from seminar work, special studies and postbaccalaureate research with Patricia DiBartolo, professor of psychology.

Laura Romanowski ’14, Julia Sisson ’14 and Ashley Nichols ’15 111
Psychological Factors and Achievement-Striving Tendencies; science poster session deriving from classwork with Patricia DiBartolo, professor of psychology.

Hannah Young ’15, Corynn Stoltenberg AC and Antonela Cesar Giordana ’14 112
PTSD and Peritraumatic Dissociation Among Sexual Minority College Students; science poster session deriving from special studies with Nnamdi Pole, associate professor of psychology.

Jackie Baron ’13 and Hannah Kistler ’13 113
Teachers Talk About the Mind and Preschoolers’ Theory of Mind; science poster session deriving from special studies with Peter de Villiers, Sophia and Austin Smith Professor of Psychology.

Joselina Tejada ’13 114
Predictive and Concurrent Validity of the Bilingual English-Spanish Oral Assessment; science poster session deriving from thesis work with Peter de Villiers, Sophia and Austin Smith Professor of Psychology.

Ellen Harrington ’13 115
Second-Order Theory of Mind and Words About Emotion; science poster session deriving from thesis work with Jill de Villiers, professor of philosophy and Sophia and Austin Smith Professor of Psychology.

Cindy Chiang ’13 116
Acquisition of Passives in Mandarin-Speaking Children; science poster session deriving from thesis work with Jill de Villiers, professor of philosophy and Sophia and Austin Smith Professor of Psychology.

Ana Duran ’13 and Kathryn Malone ’14J 117
Double Trouble? Pregaming and Drinking Games Participation in a Large Multiethnic Sample of College Students; science poster session deriving from special studies with Byron Zamboanga, associate professor of psychology.

Kristen DeLancey ’15 118
Woolf, Creativity and Madness; science poster session deriving from STRIDE research with Michele Wick, lecturer in psychology.

9:30 a.m.–noon

Extended Sessions

Archives Concentration Research Capstone Projects

This session of presentations, deriving from classwork with Susan Van Dyne, professor of the study of women and gender, will be held in Seelye 101.

Jeanne Lowrey ’14
Neilson of Smith: The Man With 2,000 Daughters.

Elizabeth (Bethy) Williams ’13
A Major of Our Own: A History of Women’s Studies at Smith College.

Margaret Barthel ’13
Muddying the Waters With Women’s Rights: Dorothy Kenyon’s Advocacy for a Feminist Agenda at the American Civil Liberties Union.

Kayla Ginsburg ’13
Lesbianism Is the Lust of All Women, Condensed to the Point of Explosion: The History of the First Lesbian Sex Magazines.

Amanda Ferrara ’13
Universal, Driving Ambition: The Bell Jar at 50.

Grace Martin ’13
Mountain Day: A History of Tradition.

Smithsonian Institution Museum Projects

This session of presentations, deriving from independent research conducted at the Smithsonian Institute with Rosetta Cohen, Sylvia Dlugasch Bauman Professor of Education and Child Study, will be held in Seelye 110.

Elaura Dunning ’14
Branding History at the Smithsonian.

Dana Elliot ’13
The Will to Adorn: Preliminary Design for the Folklife Festival Program Site.

Julia Fernandez ’14
Working in Film: A Behind-the-Scenes Perspective.

Jennifer Guerin ’14
Will Your Children Say of You, “No One Can Cook Like Mother”?.

Frances Lazare ’14
Race, Gender and Identity and the Prints of Elizabeth Catlett.
Celebrating Collaborations 2013

Miriam Mosher ’14
“Through the Eyes of Others”: The Aesthetics of Double Consciousness From W.E.B. DuBois’ New Negro Exhibit to the Scurlock Studio

Anna Olkovsky ’14
The Father of His Country: Images of Gilbert Stuart’s Washington

Jeanne Lowrey ’14
Ethnic Media: Research at the Center for Folklife and Cultural Heritage

Kahn Institute 2012–13 Student Fellows Projects

This session of presentations, to be held in Seelye 312, derives from research conducted by student fellows in the Kahn Institute’s two long-term collaborative research colloquia: Altering Bodies and Minds, organized by Nicholas Horton, professor of mathematics and statistics, and Barbara Brehm-Curtis, professor of exercise and sport studies; and Mothers and Others: Reproduction, Representation and the Body Politic, organized by Ginetta Candelario, associate professor of sociology and of Latin American Studies, and Naomi Miller, professor of English language and literature.

Jena Andres ’13
Mythic Mothers: Contemporary Poetic Spaces of Maternity

Marianne Bullock AC
Storytelling and Strategies of Resistance: Incarcerated Women Organize

Katherine Dymek ’14
Madness and Surrealism: An Obsession With Alternative States of Mind

Kaja Katamay AC
Of Two Minds? The “Two Cultures” Debate and Conceptions of Cognition

Camille Kulig ’13
Marking the Maternal: Jenny Saville and the Case of the Madonna and Child

Laura Malecky ’13
Motherhood and Movement: An Exploration of the Global “Chain of Care” and Discussions Around Sexuality

Rebecca Raymond-Kolker ’13
Writing the Mother: Identity and Self-Creation in the Works of Cherrí e Moraga

Dana Sherwood AC
Reading Between the Lines: A Critical Analysis of People Magazine

10:45 a.m.–noon
Concurrent Sessions

Celebrating Collaborations is a project of the Committee on Academic Priorities (CAP).

Acknowledgments
This event is made possible through the generous support of the Office of the Provost, the Office of the President and the Office of the Dean of the College.
Dining Services provided outstanding food and logistical assistance with breakfast and lunch.
The Smith College Jazz Ensemble provided music during lunch.
The Office of College Relations provided invaluable assistance with the preparation of the printed and online schedule and publicity.
The Louise W. and Edmund J. Kahn Liberal Arts Institute provided event coordination and administrative support.
Facilities Management provided essential support services and logistical assistance.
Educational Technology Services and their student staff ensured that appropriate equipment and support was available for all presentations.
Matt Gawron and the Campus Center staff assisted with coordinating the science poster session and ensured that it ran smoothly.
The Office of Admission provided collaborative efforts to enable this event to be held in conjunction with Discovery Weekend.
The Development Office made alumnae aware of this event.

Key to Abbreviations
AC = Ada Comstock Scholar
AMH = Amherst College
GS = graduate student
HC = Hampshire College
J = graduation in January
MHC = Mount Holyoke College
NHS = Northampton High School
UMass = University of Massachusetts Amherst
Notice of Nondiscrimination

Smith College is committed to maintaining a diverse community in an atmosphere of mutual respect and appreciation of differences. Smith College does not discriminate in its educational and employment policies on the bases of race, color, creed, religion, national/ethnic origin, sex, sexual orientation, age, or with regard to the bases outlined in the Veterans Readjustment Act and the Americans with Disabilities Act. Smith’s admission policies and practices are guided by the same principle, concerning women applying to the undergraduate program and all applicants to the graduate programs. For more information, please contact the adviser for equity complaints, College Hall 103, (413) 585-2141, or visit www.smith.edu/diversity.
