| **1. Award**     | The Boren Scholarship gives U.S. undergraduate students the opportunity to study less commonly taught languages in world regions critical to U.S. interests, and underrepresented in study abroad. The Boren Fellowship is available to graduate students (current or applicants). The Boren Scholarships offer a special initiative for undergraduate STEM majors. The scholarships fund up to $8,000 for summer study (minimum of 8 weeks) for students majoring in the STEM fields. | Scholarship: [https://borenawards.org/scholarships/program-basics/boren-scholarship-basics](https://borenawards.org/scholarships/program-basics/boren-scholarship-basics)

| **4. Selection Criteria** | Boren Scholarships are awarded with preference for countries, languages, and fields of study critical to U.S. national security. Study of a foreign language appropriate to the identified country or region must be an integral part of each application. Preference is also given to students who will study abroad for longer periods of time, and who are highly motivated by the opp. to work in fed. govt. In 2015-16, there were 750 Boren Scholarship applications and 171 were awarded. | Except for French and Spanish, there are no minimum language requirements. Candidates must demonstrate a commitment to the language and demonstrate how he or she will continue studying the language beyond the scholarship period.  
Boren Scholars must make a commitment to working in the federal government for a minimum of one year to start no more than three years following graduation.
