

William A Berry Construction and Demolition Waste Materials Recycling Report FROM: Final, LEED

Company Name Institution Recycling Network	Contact Person Matthew McKinney	Telephone Number (603) 568-7781
Project Site/Location Smith Ford Hall	Project Phase <input type="checkbox"/> Demolition <input checked="" type="checkbox"/> Construction	Estimated Time for Completion Fall 2009
Building Construction 0 Combustible <input checked="" type="checkbox"/> Noncombustible	Building Type 0 Residential <input checked="" type="checkbox"/> Commercial/Industrial	Total Square Footage 142,600

	Salvaged (tons)	Recycled (tons)	Disposal (tons)	Since Previous Report (tons)	End-Destination Facility (Name/Location)	Remarks
ASPHALT		222.35		0.00	T&M Corp	Used to process new asphalt
MASONRY; AGGREGATES		1215.58		0.00	Multiple Contractord	Hauled off site for processing and reuse as AGG Mix
WOOD		190.80		0.00	Multiple Con	Processed for mulch/ boiler fuel
SURPLUS REUSE		74.44		0.00	ReStore / ReNew Salvage/ Smith/ Site	Resold at Resale Salvage Operations
ACT		1.55		0.00	Armstrong	made into new ACT
METAL		106.48		0.00	WTE/ Sullivan	Metal recycling
GYPSUM		58.61		0.00	Gypsum Recycle America	Recycled for new gypsum
CARDBOARD		18.16		0.00	Complete Disposal	Fibers recycling
UNSORTED DEBRIS		594.47	91.89	0.00	Western Recycling / ERRCO	Separated off site at C&D MRF
TOTALS	0.00	2482.44	91.89	0.00	96.4%	RECYCLING RATE

ENVIRONMENTAL IMPACT ASSESSMENT	MTCO2	MTCO2E	BARRELS OIL SAVED	REUSE/RECYCLING ENERGY SAVINGS (MBTU)		
TOTAL REDUCTION	915	3354	2,144	12,435	180	120

NOTES:
MTCO2 - Metric Tons Carbon Dioxide emissions (greenhouse gases) saved by reuse & recycling
MTCO2E - Metric Tons Carbon Dioxide Equivalent (total greenhouse gases) saved by reuse & recycling
REUSE & RECYCLING ENERGY SAVINGS is the amount of energy saved by reuse & recycling of materials on this project to date measured in million BTUS (versus disposal and mfr. of new materials).
 Equivalent energy reduction "average" passenger cars/year. An "average" car = mid-size sedan, V6, 25 mpg
 Equivalent energy reduction "average" homes/year. An "average" home = 2,000 sq.ft. family of four.

Signature Matthew McKinney	Title Project Manager, IRN Wastemiser	Date 18-Nov-09
