

Fellowships Program Information Sheet – Spring Application for Support

Updated: March 31, 2023

Where nomination or endorsement is required (“Smith support”), we work with others on campus to make selections and provide campus support for our endorsed candidates. Our review and selection process serves two purposes:

- We nominate or endorse only candidates who meet the selection criteria of the awards; and
- We help candidates understand their competitiveness for the awards and the preparation process for making strong applications.

Smith will nominate or endorse candidates who demonstrate that they can be competitive applicants for particular awards, understand that the odds are long for actually receiving an award, and are eager to learn from the application process itself.

Where no endorsement is requirement, but application requirements are similar and competition is intense (the principal awards in this category are also listed in this [quick summary](#)), we offer advising to well qualified candidates.

Applying for Smith Support:

Make your internal Application for Smith Support using the form here: [appln4support](#) or scan the QR link here to the right to reach the internal application

Please make sure you note the special requirements below for “Additional Materials” defined for each award.

Talk with your advisers before you apply for nomination. In particular, confirm that the person you ask for a recommendation knows you are applying, why, and what you hope the fellowship will permit you to do.

To help you understand what we mean by “competitive,” the data listed in red above are the approximate percentage of awards to applications.

All awards listed are open to US citizens. Individuals with other nationalities may apply for Rhodes, Gates Cambridge, McCall-MacBain, and Knight-Hennessy.

Once you apply for Smith support:

Your application will be reviewed and you will receive feedback on your competitiveness for the awards you list. You may be invited to meet members of an endorsement committee for a short interview. Further information about interview arrangements (by Zoom meeting) will be provided by email. Candidates who are given a “green light” (enthusiastic encouragement) or a “yellow light” (qualified encouragement) will have the opportunity to prepare applications during the summer. Final confirmation of applications endorsed by the college will follow late August/early September review.

Fellowships Requiring Spring Application for Smith Endorsement: *External applications are made in summer and fall. Percentages in red indicate approximate rate of awards/applications.*

Churchill –STEM juniors and seniors apply for 2 Smith nominations– [foundation weblink](#) – [information sheet](#) – ~12%

McCall-MacBain – juniors, seniors, and recent alums apply for endorsement – [foundation weblink](#)

Marshall –juniors, seniors, and recent alums apply for endorsement – [foundation weblink](#) – [information sheet](#) -- ~4%

Mitchell –juniors apply for endorsement – [foundation weblink](#) – [information sheet](#) – ~3%

Rhodes –juniors, seniors, and recent alums apply for endorsement – [foundation weblink](#) – [information sheet](#) – ~3%

Special Note re Fulbright Postgraduate Study Awards

– if your UK graduate fellowship interests might be pursued via a Fulbright Study/Research Grant (1 year), juniors and seniors are encouraged to talk with Andrew Dausch or Jasmine Stork about application, endorsement, and support – [UK Fulbright weblink](#) – [US Fulbright Student Program](#) (UK awards) -- [Smith Fulbright Focus](#) – roughly 4% all UK competitions, but % varies award to award

UK graduate fellowship of comparable competitiveness

Note: Smith College endorsement is not required. Interested juniors and seniors are encouraged to engage in the application for support process as the first step in kicking off application preparation and advising.

Gates Cambridge (open to all nationalities except UK) – juniors and seniors encouraged to apply for support – [foundation weblink](#) – [information sheet](#) – <4% (US applicants), <2% (all applicants)

Knight-Hennessy at Stanford University – [foundation weblink](#) – [information sheet](#) -- ~2-3% (global applicants)
--juniors and seniors may apply for optional endorsement – program weblink – information sheet

Special instructions for completing the Application for Support form:

- **Churchill, Gates Cambridge (STEM fields)** – Use the research prompt to provide a summary of your research presentations and publications (including those currently in ms. form). In addition, attach as your “additional materials” (Q6.5 in the application for support), a 2pp pdf research statement: 1p summary of your most significant research to date (include details of what the research is/was, why it is significant, what you did, what you learned), followed by a 1p statement of the research you would like to pursue at Cambridge.
- **Marshall, Mitchell, Rhodes, Gates Cambridge (non-STEM fields), Knight-Hennessy** – Attach as your “additional materials” (Q6.5 in the application for support) in pdf format: a 1p summary of one particular piece of work (meaning, for example, research, writing, painting, production, or performance) that demonstrates your readiness for the graduate study that will be integral to your fellowship application(s), followed by a 1 p summary of one path you can imagine taking to reach your career goals.

Deadlines:

Express your interest as soon as possible in applying for any of the awards listed on this sheet (email fellowships@smith.edu)

Complete the application for Smith support (appln4support)	Monday, May 15, 2023
---	----------------------

[Summary of deadlines](#) that will apply if you are encouraged to proceed to prepare external applications (and [information about what the deadlines mean](#)).
