

**Fox-Boorstein International Internship Fellowship Application**  
Spring 2019

The Fox-Boorstein Fellowship is available to students in any major, although priority is given to students majoring in Government. It is intended to support Smith students working internationally at summer internships in governmental or non-governmental/profit or non-profit international organizations that involve a policy focus or involve global issues.

The amount of funding available changes from year to year, depending upon the number of applicants and the amount of money in the fund. Over the last five years, the award has varied from \$300-\$800.

Please be aware that the rules governing other Smith College funds may preclude the award of multiple funds for a single summer internship, and thus may require that you offset your awards. Students may combine Praxis funds with Fox-Boorstein funds, capped at a combined total of \$4,400. Please check with the administrators of other Smith College funds from which you are securing support to determine if an offset is necessary.

Please type your application.
