Subject: Laboratory Instructor Reappointment Review  
Date: September 18, 2019

To: Reappointment Candidates  
From: Michael Thurston  
Provost and Dean of the Faculty

Since you will be considered for reappointment in 2019-20, I am enclosing for your information a copy of the guidelines and deadlines for reappointment that have been sent to your department or program chair. The review committee’s recommendation on your reappointment must be communicated to you and to my office by May 1, 2020.

You will be invited to attend a meeting with Michael Thurston, Provost and Dean of the Faculty, Bill Peterson, Associate Provost, Hayley Spizz, Faculty Policies Specialist, and the other candidates for reappointment to discuss the process.

In the next few months, you should meet with your chair to discuss the schedule for your reappointment review. One aspect of that discussion should be the topic of classroom visitations (see sections 4 and 5 of the enclosure). You should provide your chair with a current CV and list of materials to be reviewed.

Please also review section VI.D.3 of the Policy for Appointment, Reappointment, Promotion and Tenure for the more general provisions on reappointment.

Candidates will submit their dossier materials electronically through Interfolio, a web-based platform that streamlines review processes. Links to user guides and account access are available online (https://www.smith.edu/about-smith/provost/reappointment-tenure-promotion).

I hope that this information will be useful to you in preparing your dossier and that you and your chair will consult in a timely fashion about the specific procedures to be followed in your case. Please do not hesitate to call on me, Bill Peterson, or Hayley Spizz if we can be of assistance.

Faculty File
Subject: Laboratory Instructor Reappointment Review  Date: September 18, 2019

To: Department Chairs and Program Directors  From: Michael Thurston
                Provost and Dean of the Faculty

I am writing to you in your capacity as department or program chair regarding the 2019-20 laboratory instructor reappointment review(s) in your department/program. Faculty reappointment reviews are one of the most important responsibilities of department/program chairs. The following summary outlines specific procedures and requirements, including those specified in the Policy of Appointment, Reappointment, Promotion and Tenure that chairs, senior colleagues, and departments/programs must follow, with the aim of maintaining consistency across the college and providing useful information to the provost. I have also included a summary of deadline information.

We appreciate the thoughtfulness you and your colleagues bring to this process and the effort you commit to ensuring consistency in our procedures for evaluation. The Smith faculty community has a compelling interest in departmental/program reappointment processes that are as fair, open, and consistent as we can make them.

MTT/hs

cc: Candidates for Reappointment
Summary of Chair Responsibilities for Laboratory Instructor Reappointment Reviews

1. **Reauthorization of the position.** If the department/program seeks reauthorization of the laboratory instructor position, the chair is responsible for submitting a request no later than **November 15, 2019**. The request should be 1 page and include a justification for the position reauthorization. Departments will receive notification of whether the position has been reauthorized by **February 1, 2020**.

2. **Reappointment to the position.** If the position is reauthorized, the department may either recommend the reappointment of the incumbent or propose a public search for a new appointee. Reappointment recommendations shall be supported by a formal review of the incumbent’s performance in accordance with the *Policy of Appointment, Reappointment, Promotion, and Tenure*, section VI.D.3.

3. **Voting Members.** Reappointment of laboratory instructors is voted on by the tenured and tenure-track faculty, senior lecturers, and senior laboratory instructors. All members of the department/program eligible to vote on a recommendation for laboratory instructor reappointment are encouraged to participate, including those on leave or sabbatical.

4. **Communication.** The chair is responsible for contacting the candidate early in the academic year of the departmental consideration and no later than **November 1, 2019**: 
   a. to discuss departmental procedure for the review;
   b. to discuss classroom visits and to work out a mutually acceptable time-table for these;
   c. to discuss the candidate’s dossier materials, which are due **February 1, 2020**.

5. **Classroom visits.** Please pay special attention to the scheduling of classroom visits, which may include courses during fall 2019 or spring 2020. Dates of each visit should be worked out between the candidate and the visitors well in advance, and care should be taken that at least two voting members visit any single class-session. Such visits should serve both an evaluative and an advisory function. Departments may wish to form a class visitation committee comprised of a sub-set of the eligible voting members. Each senior member who observes the teaching of a candidate provides the candidate with specific feedback and suggestions in writing. The candidate may respond to the feedback in writing if the candidate chooses to do so.

6. **Letter of recommendation.** Following the departmental evaluation, the chair is responsible for conveying to the provost a letter of recommendation by **May 1, 2020**, which contains the following:
   a. A statement of the number of qualified department members voting in favor of, and against, reappointment and the range of views regarding the preferred duration of appointment, as well as the names of the voting members.
   b. A description of the procedures followed, including those related to class visits and the construction of the candidate’s file.
c. An evaluation of the candidate’s performance in the area of teaching, and when appropriate, service, including the range of views—both positive and negative—expressed by the voting members. Departments are encouraged to be candid in their evaluation, for the benefit of the candidate, the department, and the college.

The chair is asked to submit a draft version of the letter of recommendation to the provost by **April 15, 2020** for review and feedback. The provost is interested in ensuring that the department’s or program’s expectations are communicated clearly.

7. **Submission procedures.** The chair is to submit the position reauthorization request by email to Hayley Spizz (hspizz@smith.edu), and the letter of recommendation and a completed H6 form through Interfolio.

8. **Candidate copy.** A copy of the chair’s or director’s letter of recommendation is to be sent to the candidate by **May 1, 2020**.
Deadline Information for 2019-20 Laboratory Instructor Reappointment Candidates and Chairs

All materials are to be submitted through Interfolio, unless otherwise indicated.
