

Sustainable Smith COMPOST

YES

All Food Scraps

(including tea bags
and coffee grounds)

Smith dining containers, utensils,
straws, and cups/lids are compostable!
(double-check for the  symbol)

some bio-plastic
containers look like
non-bio plastic, so
please double-check!

All Napkins and Paper Food Wraps

NO

Landfill these!

Non-Smith cups, utensils,
containers, straws

(hot and cold beverage cups, straws, and take out containers
from other restaurants are usually not compostable)

Wrappers and
Sauce packets

Plastic wrap
and bags

Recycle these!

Clear plastic, foil,
metal containers
and all paper

Know Before You Throw!

PLA-7 plastics are plant-derived plastics (bioplastics) that breakdown in industrial-grade compost facilities. We bring our compost to 360 recycling in Westfield, MA.
