

Sustainable Smith **E-WASTE**

You can take the following to the lower-level of the campus center!

Batteries

CDs

Ink Cartridges

**Unbroken Compact
Fluorescent
Lightbulbs (CFL)**

Small electronic devices

Know Before You Throw!

Electronic devices contain toxic substances that pollute our soil, water, and air when they are not disposed of properly. E-waste recycling saves the raw materials that can be repurposed and ensures pollutants do not enter our environment.
