A show by an infiltrator who lives underground, conspiring ways to make you think and laugh in no particular order.

Using excerpts from D’s different solo shows, D’FaQTo Life—pronounced De Facto—is a roller-coaster ride of emotions with stories executed through stand-up, spoken word/poetry and theater.

D’Lo explores topics relating to South Asia and transgender social justice from the perspective of being a child of immigrant parents, raised in hip-hop culture while trying to negotiate how identifying as “queer” intersected with a passion to create political art.

De Facto (de fac·to): in practice but not necessarily ordained by law; actually existing, esp. when without lawful authority, existing in fact, whether legally recognized or not
